

BOLT OF LIGHTNING
WRECKS A CHURCH

CATHOLIC SANCTUARY AT MORGAN, MINN., DEMOLISHED.

The Building Was Entirely Demolished—Carelessness Caused a Terrible Wreck on the Rail Near Aurora, Ill., and Several Boys Lost Their Lives in Consequence.

Morgan, Minn., Aug. 17.—The Roman Catholic church at this place was struck by lightning last night, and totally demolished.

Aurora, Ill., Aug. 17.—A railroad disaster full of horrors occurred yesterday afternoon at the bleaching works, a mile and a half north of this city. One life was lost, another fatality will result, and three other persons were injured. These victims are all boys. In addition to this, the passenger train was demolished. The accident was due to an open switch, which permitted a passenger train to collide with a car loaded with carboys full of acid. The victims of the disaster, in addition to being crushed and bruised, were drenched with the acid and horribly burned. Those who suffered from the wreck are: The dead:

THOMAS ROST.
The injured:
Charles Chivers, will die.
Arthur Robinson, bruised and burned with acid.
Fred Robinson, bruised and burned with acid.

J. Munch, bruised and cut.
Conductor Carlson, of the passenger train, back injured.

William Farwell, brakeman; forehead badly cut.
Mrs. Nancy Smith, of Chicago, aged 84 years.

Mrs. Van Wert, of Batavia; nose broken and otherwise injured.
Two women passengers, overcome by the shock.

Although the train was badly wrecked, the passengers all escaped serious injury. The boys who were hurt were playing on the car loaded with acid that stood on the side track. Blame of the terrible wreck undoubtedly lies with the switching crew, who had been working in the vicinity only half an hour before the passenger pulled out. The engineer of the passenger train noticed nothing wrong with the switch until his engine had swerved into it, and was close upon the car only a few rods away. Neither he nor the fireman had time to jump, but miraculously went through the wreck without a scratch. The front of the boiler was crushed in by the collision, and escaping steam and hot water mingled with the deadly acids in their work of destruction. The acid was sulphuric acid and was to be used in the bleaching. The carload had been received only yesterday. Tom Rost, the boy killed, was a son of the engineer of the bleaching and his father was the first to pull his boy's body out of the wreck.

The injured were all removed to their homes and cared for. A wrecking crew arrived at 9 o'clock and the work of clearing the tracks was at once commenced. The father of the Rost boy and several others were burned about the hands by acid while engaged in getting the boy's body out from the splintered cars.

READY FOR A LYNCHING.
Guards Doubled Around the Lexington, Ky., Jail.

Lexington, Ky., Aug. 17.—Henry Mitchell Smith, who was caught by bloodhounds a short time ago and lodged in jail here for committing a criminal assault upon a white woman, was faced yesterday by his victim and positively identified. This caused great excitement and Judge F. A. Bullock at once issued an order that fifteen men be placed as a guard to prevent the people from lynching Smith. A big crowd has surrounded the jail and is waiting for the arrival of 150 men from Payne station, where Smith's victim lives. A fight and a lynching are expected.

English Currency Reformers.
London, Aug. 17.—A meeting of the members of parliament favorable to currency reform was held in the house of commons yesterday. It was resolved to form a parliamentary committee, its members being engaged to promote an international conference, for the purpose of considering what measures can be taken "to remove or mitigate the evils resulting from the fluctuations growing out of the divergence in the relative value of gold and silver." At a public meeting held at St. Pancras, a resolution was adopted, urging upon the government the pressing necessity of joining the other powers in an international agreement to settle the currency question.

Eight Killed, Ten Badly Hurt.
Dubois, Pa., Aug. 17.—A dispatch from Clearfield says that eight men were killed and ten men seriously hurt last night by the premature explosion of a blast near Mehauff, on the Pittsburgh and Eastern railway. The telegraph offices in the vicinity are closed and no further details can be had.

Duettow Case Ended.
Union, Mo., Aug. 17.—Arguments in the Duettow case were concluded at 10:30 last night and the case given to the jury. A verdict will be rendered to-day.

Passenger Steamer Released.
Queensstown, Aug. 17.—A large passenger steamer ran ashore on the coast in the vicinity of Ballycotton, to the eastward of this yesterday. A dense fog prevailed. The coast guards went to Ballycotton with the life-saving apparatus, and found that the steamer had been floated and had proceeded on her journey. Her identity was not established.

Pennsylvania Town in a Panic.
Erie, Pa., Aug. 17.—The planing mill owned by James Kearns in Saegertown was fired last night and is a total loss. The loss above insurance will be \$15,000. The entire town is frenzied, for without immediate help the fire will spread to the heart of the borough.

Murderers to Be Punished First.
London, Aug. 17.—In the house of commons yesterday the under secretary of the foreign office, Mr. George N. Curzon, replying to a question put by Edward E. Carson, said the government had not deemed it advisable to raise the question of monetary compensation for the relatives of the victims of the Chinese massacres until the culprits had been punished.

Accounts \$40,000 Short.
Cincinnati, Ohio, Aug. 17.—The books of Samuel Woodside & Co., coffee and cigars, were yesterday turned over to an expert and he has so far discovered a deficit of \$40,000. Robert Ralston, who has been the confidential secretary for many years, is charged with the shortage. He has turned over all of his property to the firm. The real estate owned by him will perhaps exceed \$5,000 in value.

Approve Taylor's Bond.
Pierre, S. D., Aug. 17.—The bond of W. W. Taylor for \$30,000 has been approved by the supreme court. The sureties are practically the same residents of this city as were on his former bond. Taylor will remain in this city until the case is finally disposed of.

R. G. DUN & CO'S TRADE REVIEW

Disappointing Crop Reports Tend To Lessen Confidences.

New York, Aug. 17.—R. G. Dun & Co.'s weekly review of trade says: "It is a belated season; a frozen May set everything back. The heavy business which ought to have been done in May and June was pushed into July, so that the midsummer decline due in July comes in August. With this in mind, one is not surprised to find the shrinkage from July to August rather more conspicuous than usual. The disappointing crop reports of last Saturday, though evidently distrusted, lessen confidence in regard to the future of trade, even while some speculators gain by them.

"Back of all doubts is the fact that the industries are doing better than anybody could have expected. Textile imports have been very heavy, and advances in cotton goods to some extent check buying, while Fall River spinners are organizing for restoration of wages paid before the panic. Woolen manufacturers find in their way large sales of foreign goods at prices which cause official investigations. The sales of wool—6,313,600 domestic and 5,279,900 foreign this month, against 12,370,650 domestic and 1,602,500 foreign last year, and 11,369,802 domestic and 4,566,500 foreign—indicate that domestic wool is largely held for speculation at prices about a cent higher than manufacturers feel able to pay.

"Crop reports modified expectations as to cotton and wheat, and cotton speculators have bought heavily, lifting the prices 5-16, while wheat, with more evidence of loss in yield, has declined 1 1/2 cents. A third of the year's consumption of American cotton is yet on hand, but not a third of the year's consumption of wheat. Receipts for the week were better, but not half last year's, and in three weeks 6,598,531 bushels, against 17,211,633 bushels last year. Atlantic exports for the week have been 889,301 bushels, against 2,749,535 last year, flour included, and for three weeks 2,552,880 bushels, against 8,242,683 last year. The official reports for July show exports of 8,611,028 bushels, flour included, against 10,800,147 last year, but the Pacific exports increased five fold at an average of 57 cents per bushel, while Atlantic exports at about 72 cents per bushel were but 6,022,863 bushels, flour included, against 10,265,559 last year. Corn declined 1/2 of a cent with favorable news, and pork fell 25 cents per barrel and lard 18 cents per hundred pounds.

"Failures for the week have been 196 in the United States, against 229 last year, and thirty-eight in Canada, against forty-five last year."

SCANDAL AT MASSILLON.
Municipal Authorities of the Town Charged With Grave Misdeeds.

Massillon, O., Aug. 17.—Astounding revelations in the municipal government have been made on the heels of ex-Clerk Bayliss' deficit. In addition to Clerk Bayliss' shortage of \$2,700, there are accounts aggregating \$6,000, which the experts cannot fully locate. Grave offense are hinted at, but until the investigation under way begins cannot be established. Contracts were not let to the lowest bidders and the ring of hoodlums was powerful enough to frustrate the efforts of honest men. Great indignation is expressed, and the cry is "Dig deeper."

Still Working on Waller's Case.
Terre Haute, Ind., Aug. 17.—Senator oorhees, who forwarded to the state department a letter he had received from John L. Waller, asking him to assist in having his imprisonment by France investigated, has received a reply from Acting Secretary of State McAdoo stating that the department has been unremitting in its efforts in behalf of Mr. Waller. Mr. McAdoo says it is reported that Mr. Waller is ill.

Epidemic of Typhoid Fever.
Marion, Ia., Aug. 17.—The continuous drouth is drying up the springs from which the city water supply has been drawn and the water company has been compelled to take its water from Indian river, which is wholly unfit for use. As a result the town is suffering an epidemic of typhoid and other malignant forms of fever. The situation causes grave apprehension.

THE CODE OF HONOR
AGAIN IN DEMAND

TWO FOREIGN NOBLEMEN FIGHT A DUEL.

Capt. Semitchoff of the Russian Army Wounds Prince Alifosil—Two Physicians at Portland, Oregon, Settle Their Differences in a Similar Manner—An Indiana "Affair."

Paris, Aug. 17.—Captain Semitchoff, of the Russian Imperial Guard, fought a duel this morning with Prince Alifosil, a cousin of the Khedive of Egypt, with pistols, and the prince was wounded slightly.

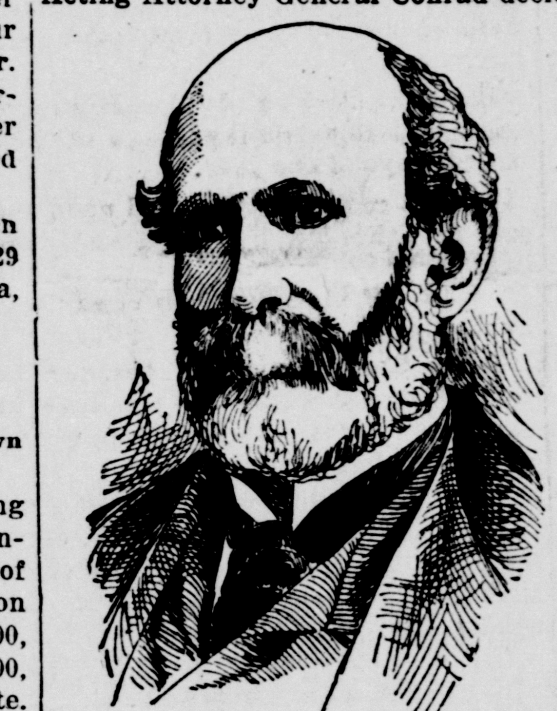

Portland, Ore., Aug. 17.—At noon yesterday the report of several shots in rapid succession were heard to come from the office of Dr. H. R. Holmes, in the Dekum building, Third and Washington streets. The tenants of the building rushed in and found the prostrate bodies of Dr. Holmes and Dr. Robert K. Aushland, each of whom was holding a smoking pistol in his hand. Aushland had a hole in his body and one in his head, another in his breast, and another in his right wrist. Holmes was wounded in two places, one ball having entered an arm and the other the body just below the left nipple. Aushland's wounds will undoubtedly result fatally, while the physicians think Holmes will recover. It is not known what was the cause of the shooting, but it is thought it was due to a criticism by Holmes of Aushland's methods of treating a patient in the Portland hospital, where Aushland called at Holmes' office to make him retract.

Bloomington, Ind., Aug. 17.—At Stineville David Culross and Charles Deck fought a duel with knives, the outgrowth of an old feud between families. Deck is dying and Culross is in a dangerous condition.

APPOINTMENT ILLEGAL.

Allegation That Minister Ransom Is Barred by Increase of Salary.

New York, Aug. 17.—A special to a local paper from Washington says: Acting Attorney General Conrad decid-

ed yesterday that the appointment of Matt Ransom as minister to Mexico was illegal, on the ground that the salary of the office had been increased by congress \$5,000 while Mr. Ransom was senator from North Carolina. The decision was based on a question raised by Auditor Holcomb in declining to act favorably on Mr. Ransom's vouchers for salary and expenses.

THE OMAHA MUDDLE.

Papers in the Police Case Filed in the Supreme Court.

Lincoln, Neb., Aug. 17.—Four papers in the Omaha fire and police cases were lodged with the clerk of the Supreme court yesterday. They are the petition of the attorney-general in the quo warranto proceedings, the stipulations of the attorneys of the contestants and the answer of the contestants. The petition of the attorney-general gives the history of the passage of the bill creating the new board and the contention of the old board against its enforcement. The defense of Bemis, Brown and Deaver, the old board, is put on two grounds—unconstitutionality and that Churchill and Russell were not authorized to make appointments without the co-operation of the governor.

POST OFFICE VAULT BLOWN OPEN LAST NIGHT.

Robber Got \$400 in Cash and \$100 in Stamps Besides the Contents of Two Mail Sacks—Safe Containing \$3000 Balked Them—Jim Swallow Discharged—State Specials.

Fond du Lac, Aug. 17.—Burglars broke into the postoffice last night and secured four hundred dollars in cash and one hundred dollars' worth of stamps. They blew the vault open, but failed to get into the safe, which contained three thousand dollars. This is the fourth time the postoffice has been robbed within a short time.

Black River Falls, Aug. 17.—Jim Swallow, who killed George Black Hawk, son of the famous chief, Black Hawk, on May 30 last, was discharged today by Judge Barclay on the ground of self defense.

Trouble at Superior, Wis., Unsettled.
Superior, Wis., Aug. 17.—City and county officials, with the managers of coal companies, met the striking coal haddlers yesterday to attempt, if possible, to come to an amicable settlement of the wage difficulty. The companies positively refused to advance the scale beyond what it is now. The union then asked if the companies would be willing to change to a tonnage basis. The managers wanted time to confer and were given until Monday. All docks are working with imported men.

MAN KILLED IN A COURT ROOM

Newton Winn Shot Down By Wott Reed While the Judge Looked On.

Platte City, Mo., Aug. 17.—During the progress of a petty trial in the Circuit court here yesterday Wott Reed shot and fatally wounded Newton Winn. Reed is under arrest. The courtroom was crowded at the time and a wild scene ensued.

Winn and Reed are prominent farmers near Plattsburg. One had charged the other with stealing a large number of hogs, and in a fight that grew out of the occurrence the people of Clinton county took sides. Yesterday representatives of the two factions crowded the courtroom and made no pretense of covering up their show of feeling.

After the proceedings had gone on for some time, John Cross, lawyer for Reed, made an insulting remark about Winn's son. Winn rose as if to strike at Cross, when Reed drew his revolver and before his arm could be arrested sent two bullets into Winn's body, one piercing the right arm and the other going through the abdomen. In the excitement that followed Reed made his way to the door and was just escaping when arrested.

Winn was carried to a neighboring house in a dying condition and cared for. Reed is in jail, while many of his enemies are making threats against his life. No fear of lynching is felt, however.

WILL ENFORCE THE LAW.

Gov. Evans of South Carolina Preparing for Trouble.

Columbia, S. C., Aug. 17.—A rigid enforcement of the dispensary law is to be commenced again. Gov. Evans says he has tried to use moral suasion for the last six months, but he finds this will not do and the blind tigers are taking the state. Five thousand dollars a month is paid out maintaining dispensary constables, but they are unable to cope with the blind pigs. The governor threatens to put every town and city in the state under the metropolitan police system unless they all reform and drink nothing but state liquor. Gov. Evans says Charleston will be put under metropolitan police within the next sixty days unless every blind tiger is closed. There are more places where liquor is sold openly now than under the license system.

Sues for the Price of Slaves.

Bloomington, Ill., Aug. 17.—George A. Hill, a young lawyer of this city, began suit in the Circuit court yesterday to recover the price of twelve slaves, the sale of whom was made thirty-seven years ago. William Lewis, the plaintiff, is a son and heir of the original owner of the slaves and claims that he never transferred his interest in the slaves and that Ferre is indebted to him in the sum of \$5,000. William Lewis is a resident of Chicago, and he declares that the reason this claim is not outlawed is that Ferre has been a resident of Missouri and Indiana ever since the sale and has never been a resident of Illinois.

Consul-Gen. Judd in Trouble.
Washington, Aug. 17.—The Times says: "Private advices received in this city intimate that Max Judd, consul-general of the United States to Vienna, has been removed. No confirmation can be obtained at the state department, but this is not held to detract from the possible accuracy of the information."

Peace Conference Adjourns.
Brussels, Aug. 17.—The international conference on peace yesterday adopted a resolution declaring that when a state has proclaimed permanent neutrality, such neutrality should be recognized by the powers. The conference adjourned after voting to meet next year at Budapest.

Spring Valley Rioters Arrested.
Spring Valley, Ill., Aug. 17.—Sheriff Clark and twenty deputies from Princeton came to town yesterday armed to the teeth for the arrest of the rioters of Sunday, Aug. 4, when the negroes were driven out of No. 3 location. Thirty-six miners were taken just as they came up with their pit lamps and coal-begrimed faces and driven fifteen miles to the county jail, where they have a preliminary examination by Judge Swangle this morning. The most of those arrested are Italians.

Ex-Justice Strong Dying.
Washington, Aug. 17.—Information received here by the family of ex-Justice Strong of the Supreme court, retired, now at his summer home at Lake Minnewaska, N. Y., is that his condition is again very uncomfortable. The rally which he experienced some days ago is believed to be of a temporary character, and not such as gives the family any hope for a permanent recovery.

Incendiaries Destroy a Polish Town.
Warsaw, Aug. 17.—The town of Prztytyk, in the Radom district, has been destroyed by fire. A church is the only structure in the place that was not burned. Four thousand persons are homeless and are camping in the fields or about the smoking ruins of their houses. The fire was of incendiary origin.

Nebraska Officials in Trouble.
Beatrice, Neb., Aug. 17.—City Clerk J. F. Phillips and Water Commissioner George Hawkins were arrested yesterday on a charge of obtaining money under false pretenses, and their offices were declared vacant by the council. The information under which the arrest was made was filed by W. P. Norcross, president of the Farmers' and Merchants' Bank, the warrant being issued by County Judge Bourne. A meeting of the council was held and the offices of water commissioner and city clerk were ordered vacant. The two officials turned their offices over to Councilman William Morrison until the appointment and confirmation of their successors.

One Hundred Persons Killed.
Sofia, Aug. 17.—The report is confirmed of the attack of 500 Bulgarians on the Mohammedan village of Dospal, across the Turkish frontier, before dawn on Saturday. The later reports received show that 300 houses were burned and 100 persons were killed. A dynamite bomb was thrown from a mosque into a crowd of refugees. It is believed that the attack was arranged by the Macedonian committee in order to provoke fresh atrocities, and thus incense Europe against Turkey.

Attempted Assault on a Child.
Chicago, Aug. 17.—Six-year-old Ida Miller last evening was the victim of an attempted assault by Arthur Blume, 40 years old, in the apartments occupied by her parents in the Park View hotel at 68th street and Jefferson avenue. Mr. and Mrs. Miller had gone a few blocks distant to market. The child's screams brought assistance, and threats of lynching were made by the mob. Blume was rescued by police officers and lodged in jail. The child is not seriously hurt.

Spring Valley Rioters Arrested.
Spring Valley, Ill., Aug. 17.—Sheriff Clark and twenty deputies from Princeton came to town yesterday armed to the teeth for the arrest of the rioters of Sunday, Aug. 4, when the negroes were driven out of No. 3 location. Thirty-six miners were taken just as they came up with their pit lamps and coal-begrimed faces and driven fifteen miles to the county jail, where they have a preliminary examination by Judge Swangle this morning. The most of those arrested are Italians.

Ex-Justice Strong Dying.
Washington, Aug. 17.—Information received here by the family of ex-Justice Strong of the Supreme court, retired, now at his summer home at Lake Minnewaska, N. Y., is that his condition is again very uncomfortable. The rally which he experienced some days ago is believed to be of a temporary character, and not such as gives the family any hope for a permanent recovery.

Incendiaries Destroy a Polish Town.
Warsaw, Aug. 17.—The town of Prztytyk, in the Radom district, has been destroyed by fire. A church is the only structure in the place that was not burned. Four thousand persons are homeless and are camping in the fields or about the smoking ruins of their houses. The

ODD GROWTH FOUND ON SUNKEN BOARDS

RIVER GIVES UP A PECULIAR
KIND OF MATTER.

Large Irregular Masses of Clear Gelatinous Substance Found Under the Water and Nobody Knows What It Is—To Have it Examined Under a Microscope.

Janesville water power owners are mystified by a new product of Rock river and as yet none of them have been able to figure out what it is. The substance is a gelatinous formation that gathers on wooden surfaces, under the water, and its like has never been seen until within a few months. It grows in big irregular chunks, and on the outside, looks like the smoother varieties of sponge. Inside, however, it has an entirely different appearance. Cut one of the masses in two and it is found to be as clear as plate glass and not unlike the good housewife's lemon jelly. There is no grain in it and it does not melt away in the sun as rapidly as one would suppose. Iron rust will discolor it wherever it comes in contact with a pipe or bolt, but otherwise it does not seem to change color at all. There is no more odor to it than there would be to any substance that lies in the river and the outside is the only portion that gives any indication of its origin.

River Experts Balked.
The outer surface is generally of a water-green color and is divided off into miniature star shaped sections. This pattern is only apparent on the skin like outer surface, and does not extend into the mass underneath. While the substance is firm, it is not at all tough, and can readily be cut up into sections with a sharp stick. The masses will gather on submerged boards or piles and vary in size from pieces as large as a small potato to chunks as large as a nail keg. A piece that is as large around as a man's body is now growing on a pile in the race way near Inman & Ballard's mill and it was from a plank that extended out underneath the water that Alderman Inman scooped up a big piece the other day and eyed it critically. The alderman has made botany something of a study and can tell what almost any kind of a plant is, but this growth "stumped" him.

"I have not been able to find anyone who knows what that stuff is," he said to a Gazette reporter. "Shepard Lee, who is pretty familiar with the river and its products, says he has never seen anything like it, and he does not know what it is. I am going to have Dr. McCauley examine a piece under his microscope when he comes home."

F. M. Marzluff said he did not know what the substance was, as did also a number of other water power users.

Rev. S. P. Wilder, who is quite a microscopist, took a piece home to examine, but up to date, the mystery has not been solved.

ASSOCIATION HAD A GOOD YEAR
Rock County Building and Loan Makes a Grand Showing.

The Rock County Building Loan and Savings association has just closed its second year's business and makes a good showing. While times have been depressed and business generally dull, the association has had a slow but steady growth, and the investors are gratified with the result. The association, which is a home institution is worthy of liberal patronage. Every young man in the city who possesses the ambition to save a few dollars, should take a few shares of stock in the Rock County Building, Loan and Savings Association, it is better than money at ten per cent. A few dollars saved every month and placed in interest in the hands of the association, means in a few years \$1000; a nice little sum for any young man to possess. The officers of the association are:

President—S. C. Cobb.
First Vice President—E. W. Lowell.
Second Vice President—Dr. W. H. Judd.
Secretary—George L. Carrington.
Treasurer—Isaac Farnsworth.
The secretary will cheerfully furnish information concerning the workings of the association. Mr. Wallen is making a canvass of the city.

THERE is no doubt, no failure when you take DeWitt's Colic & Cholera Cure. It is pleasant, cures promptly. No bad after effects. C. D. Stevens.

BLOCK SYSTEM SOON ON NORTHWESTERN

AUTOMATIC SIGNALS TO BE
INSTALLED.

Big Freight Business This Fall Will Make Safe-guards Necessary—Assistant Chief Engineer Cortes Goes Over the Ground and Announces the Plans.

The Northwestern road is preparing for an immense freight business this fall.

The granaries of the northwest are bulging with grain. This makes business for the railways.

To expedite business and enable it to run more trains the Northwestern has decided to put in a block system of signaling between Madison and Baraboo. It will be introduced at once in order to accommodate the fall trade.

Yesterday E. C. Carter, of Chicago, assistant chief engineer, and H. W. Battin, of Winona, division engineer, went over the ground.

"Yes, we will put in a block system of signaling between here and Baraboo," said Mr. Battin last evening after returning from his tour of inspection.

Will Run Eighty Trains a Day.

"You see, we are running sixty-five trains a day over that part of the line," he continued, "and these are not sufficient to accommodate our business. We will soon be running eighty. To do this safely we must take every possible precaution and hence have decided to make the improvement in question. The system which we propose to put in is a new one that came into the possession of the road only recently. It is not in use on the road anywhere. It is no experiment, however, for the apparatus has been thoroughly tried and its reliability has been demonstrated. We use the Hall system in and about Chicago and Milwaukee. Most of the roads use that system. It is operated by the use of electricity, while the system which we will put in north of here is operated mechanically. Both work automatically."

Dangerous Piece of Road.
The distance to be protected by the signals is about thirty-seven miles. There will be ten blocks, allowing a little less than four miles a block.

By the means of this improvement one train cannot run into another, because when a train enters one section the signals at both ends give the information. It will enable trains to make better time, with less risk. The road between Madison and Baraboo is considered one of the most dangerous portions of the entire system. This is especially true at Devil's Nose, near Devil's Lake, where most of the accidents happening in this section occur.

CURIOUS BIGAMY CHARGE OF
JOHN CORCORAN

Wants Mr. and Mrs. Criddle Arrested Saying That the Woman is His Wife Although he Never Married Her—Washington Common Law Involved.

John Corcoran, a traveling man, is trying to secure a warrant for the arrest of Mr. and Mrs. F. Criddle.

He has interviewed District Attorney Jackson, but the district attorney is not disposed to act.

Corcoran wants the warrant issued on the ground of adultery, for he says Mrs. Criddle is really his wife, though they never went through the marriage ceremony. They lived together, however, in the state of Washington, and Corcoran claims a common law marriage exists between them.

They came east together. Last February she and Criddle, who is a saloon keeper at Stoughton, were married at Evansville.

Disappointed in his attempt to get a warrant in Rock county Corcoran is said to have tried the Dane county officials. District Attorney Anderson, of Madison, also hesitates, however, and wants better evidence as to the common-law marriage before having a warrant issued.

Narcoti-Cure

CURES THE TOBACCO HABIT
IN 4 TO 10 DAYS
OR MONEY REFUNDED.

Use All the Tobacco You Want Till Your "Craving" is Gone.

Narcoti-Cure is the only remedy in the world that acts directly on the nerves and drives the nicotine from the system in four to ten days. It leaves the patient in better health than before taking, and is warranted free from all injurious ingredients.

Narcoti-Cure is popular because it allows the patient to use all the tobacco he wants while under treatment, or until the "craving" and "hankering" are gone. It is then no sacrifice to throw away tobacco forever.

Narcoti-Cure is sold at the uniform price of \$5 a bottle, and one bottle cures.

Money refunded if a cure is not effected when taken according to directions.

PROF. W. N. WAITE,
Of Amherst, Mass., Chewed Tobacco
For 46 Years, and Was Cured
by Narcoti-Cure.

AMHERST, Mass., Feb. 8, 1895.
The Narcoti Chemical Co.,

Gentlemen:—Replying to yours of the 1st would say that I have used tobacco for 46 years and of late have consumed a 10 cent plug a day, besides smoking considerably. I commenced to use tobacco when I was only 11 years old, and have never been able to give up the habit until I took Narcoti-Cure, although I have tried other so-called remedies without effect. After using your remedy four days all "hankering" for chewing disappeared and in four days more smoking became unpleasant. I have no further desire for the weed, and experienced no bad effects, whatever. I am gaining flesh, and feel better than I have for a long time. To all who wish to be free from the tobacco habit I would say use Narcoti-Cure.
Yours truly, W. N. WAITE.

If your druggist is unable to give you full particulars about NARCOTI-CURE, send to us for Book of Particulars free, or send \$5 for a bottle by mail

THE SUPREME BENCH

Now that there is a vacancy on the supreme bench the usual complaint is made that the salaries paid to the justices are altogether inadequate, and that we cannot expect to get the best judicial material unless the pecuniary inducements are greater. It is declared that \$10,000 a year is no inducement to offer to a competent lawyer, of sufficient experience to fill the position, inasmuch as he is reasonably certain to be earning considerable more than that in his private practice. The inducement may be sufficient but certain it is that so far we have had the best men, and that our supreme tribunal is not only above criticism from our own citizens, but is respected by other nations. The acquisition of justices who are not actuated by mercenary considerations is no small advantage. The honor which accompanies the appointment appeals to precisely the kind of man who is especially desirable to fill it, namely, the man who has worked faithfully in his profession, has achieved a reputation for sound legal acquirements, and who has reached the age when the judicial rather than the contentious attitude, fits his mood.

The country could well afford to pay more for the work done on the supreme bench, but it is by no means certain that to make the salary large enough to attract a man from a brilliant and active legal practice, while his reputation though enviable is not yet fully rounded, would not bring into service those who would be, so to speak, not ready for the broader and graver responsibilities.

WHY USE SILVER AT ALL

Senator Puffer declared against all metallic money and his arguments are quite as sound as Coin Harvey's. If 37½ grains of pure silver coined into one dollar can be kept at that value for all time to come by the mere fiat of congress, regardless of the commercial or market price of the metal the same quantity of copper or iron can be coined into dollars and perpetually made to circulate as money at that price. If congress can convert fifty cents worth of silver into a dollar by stamping it one dollar it can convert the same piece of silver into ten dollars or one hundred dollars by stamping upon these coins ten or one hundred dollars. Carried to its logical sequence we reach the conclusion that congress can convert paper into money by stamping upon it any denomination that may be demanded for circulation as a medium of exchange.

FARMERS HAVE CASH.

Rock county farmers will make a handsome profit this year, not because any one crop is big, but they have so diversified their business as to make a profit certain no matter what occurs. It is a matter of history that in all the Wisconsin dairy centers the banks held, all through the panic, heavy deposits belonging to farmers in the adjacent territory. Though crops might be poor or prices low, the grain that would not bring a satisfactory price in the market went into beef or pork that would bring desirable returns, and Wisconsin butter, the equal of any in the market, brought prices as glib edged as itself.

The sooner all Rock county farmers learn this lesson the better it will be for their prosperity. They have already made special records but their progress may be vastly accelerated if they turn their attention to the development of every resource.

Stragglers are coming back from the northwestern wheat fields, complaining that the facts have been misrepresented about the scarcity of men and the large wages offered for harvesters.

vest hands. It is claimed that the idle men from nearly a dozen states have flocked into the Red River valley, and, as a consequence, there is no work to be found, and wages have dropped to less than one dollar per day.

CUBA'S FORTUNE

If Cuba is to cut loose from Spain it must be annexed to the United States. It must be either Spanish or American. That is the feeling of this country.

More than forty years ago, England and France asked the United States to join them in a treaty in which each would promise for itself not to acquire the island, and to discountenance all attempts in that direction by other nations. Edward Everett, then secretary of state, refused on the part of the Fillmore administration to enter into an agreement on this question with any European power, declaring that Cuba's fate, aside from the rights in the island possessed by Spain, was a purely American concern, and that this government could not view any outside interference with indifference. This answer expressed the sentiment of the country at that time, and it does still. Cuba independent, would be too weak to maintain herself long, and in order to keep it out of the hands of some stronger European power than Spain, the United States, in her own defense, would be required either to establish a protectorate over it or to annex it.

An "anti-bloomer association" has been formed by the young men of a certain town in New York who pledge themselves to have nothing to do with a girl who wears bloomers. It will be quite as effective, doubtless as the anti-tobacco league was among young women.

When a poor fellow up in the woods helps himself to a cord of pine it is called stealing, but when some lumber company steals thousands of dollars' worth of pine timber belonging to the state, it is called "trespass" and a modest fine glosses it over.

John C. Freund makes this apt suggestion as to tariff conditions: "A chicken is cheap in the United States for 50 cents—if you have the 50 cents—and it is dear in London at 25 cents—if you haven't got the 25 cents."

German Seamen Abused.

Berlin, Aug. 17.—Grave cases of ill-treatment of the crew of the steamship Kaiser Wilhelm have been reported. Two stokers jumped overboard in despair and were drowned. A third died from brutality inflicted by the engineer.

Holmes Guilty of Murder.

Toronto, Ont., Aug. 17.—The inquest on the body of Nellie Pitzel, the younger of the two girls, believed to have been murdered by the notorious Holmes, was concluded last night. The jury returned a verdict of willful murder against Holmes.

American Fighter Wins.

Dublin, Aug. 17.—In the presence of 5,000 persons at Leinster Hall, Peter Maher, the Irish champion, knocked out Johnston of London in half a minute.

BRIEF BITS OF LOCAL.

EARLY purchasers of novelty dress goods get the choicest things. Why? Because the importer brings over only limited quantities, and the more prompt merchants secure their first choice and get the best things. We show forty patterns, no two alike. Bort, Bailey & Co.

EVERY one join the grocermen at the picnic Tuesday, Aug. 20. All the dry goods dealers will close their stores and go along. Why not all do the same? Round trip tickets only 15 cents. Boats leave 1:30, 2:30 and 7:15 in the evening.

We have a fine line of nickel cigars as can be found in any case in the city. We pay the highest prices paid by any one for 5 cent cigars. We buy them right and sell them right. Come and see us. C. D. Stevens, pharmacy.

COME in and let us show you what 50 cents will buy in fancy black dress goods. We are positive the goods are sold elsewhere in the city for 75 cents. Bort, Bailey & Co.

WE carry all sizes and widths in ladies and gents fine shoes. So you won't wonder that we sell to almost all the people in the section. Brown Bros. & Lincoln.

WANTED—At once five or six good brick layers, wages first class, with Northern Electrical Manufacturing Company dison, Wis. Apply at once.

THE grocermen have both parks, and both boats. Fifteen cents for the round trip ticket. Free dancing in the evening.

Hicks—How so?

Mrs. Hicks—You nodded to about everything he said.—N. Y. World.

Wire Workers Organize.

Cleveland, Ohio, Aug. 17.—Representative wire workers from several places are in session here to form an independent national organization. Heretofore they have been affiliated with the American Federation of Labor. The new organization has been perfected and will be known as the Federated Association of Wireworkers of America. James Call of Findlay, Ohio, is president. The national headquarters will be located in this city.

Charged with Attempted Poisoning.

Crown Point, Ind., Aug. 17.—Link by Link the chain of evidence is being forged which is expected to bring the Horsford Park poisoners to justice. Yesterday Mrs. Eightstade and her son John, mother and brother of Mrs. Williams, were arrested and placed in jail by Sheriff Hayes. It is now considered almost sure that the whole Williams family knows all about the poison, and that some of them will give it away. More arrests are to be made.

A REMARKABLE CURE.

A CASE OF PILES OF EIGHTEEN YEARS STANDING.

Cured by the Pyramid Pile Cure.

There are plenty of pile cures which give relief and sometimes cure a mild case of piles, but there is only one which can be depended upon with certainty to cure obstinate, long standing cases, and that is the Pyramid Pile Cure.

Endorsements and testimonials are received daily from men and women whose integrity and reliability are above question and in this connection a letter received from the Rev. Jas. H. Westbrook, of Bowne, Mich., may be of interest to piles sufferers who have sought in vain for a cure. He says:

I have used the Pyramid Pile Cure and I know that it is all that is claimed for it. I had been troubled with piles more or less for about eighteen years and I had tried other remedies, but the piles grew worse until about ten months ago I used the Pyramid Pile Cure. It gave almost instant relief and I have been free from piles ever since. Rev. Jas. H. Westbrook.

The remedy seems to act equally well in every form of piles, blind, bleeding, protruding or itching. It stops all pain almost immediately, allays irritation and removes constipation, and anyone who has suffered the annoyance and pain of a rectal trouble will appreciate the excellent results which invariably follow the first application of the Pyramid.

The Pyramid Pile Cure is prepared by the Pyramid Drug Co. of Albion, Mich., and for sale by druggists everywhere. Two sizes, 50 Cents and \$1. Sold by all druggists.

AIRY FAIRY ELLEN IS ON THE SCALES

LIQUOR CASE IS ON AT ORFORDVILLE TODAY.

Justice Helmbolt is Hearing Evidence On The Much Mooted Question of Whether or Not Budge Was Purveyed—Stopped Her Gazette—City News.

ELLEN AGAIN—District Attorney Jackson went to Orfordville this morning to prosecute the case of the State of Wisconsin versus Ellen Shafer. Mrs. Shafer is charged, and unjustly she claims, with selling liquor without procuring a license, at her hotel, The Traveler's Rest, at that village, and the case is now being heard before Justice George Helmbolt. Attorney William Smith is conducting the defense. In this connection it may be said that Ellen is no longer reading The Gazette. For several years she has been a regular subscriber of this excellent family journal, but unfortunately for all concerned, her wrath raged within her after she read the mild and inoffensive notice that was published soon after her arrest and she came to The Gazette office and opened the decanters of her soul. "Stop your paper!" was the concise and vehement sentence she hurled over the counter, and with the promise that she would soon make a deficit in The Gazette's fat Orfordville list, airy, fairy Ellen was gone. And 'tis well. The Gazette will probably have a hard time to wrangle along without Ellen's \$1.50 per year, but we'll try it, and in the mean time the authorities are trying Ellen.

This is very hot weather, of course you know that, well did you know that you can take more comfort in a pair of tan shoes than anything else. We have a large assortment left and our prices are cut in two. You can buy them all at half price. Take comfort come in and try a pair. You can buy a good tan shoe for \$1.50. Brown Bros. & Lincoln.

Y. M. C. A.—All men are cordially invited to attend the men's meeting at the Y. M. C. A. rooms tomorrow afternoon at 3 o'clock. R. F. Hethington will lead. The gospel singing and music is a pleasing feature. These meetings are helpful to men. Let every one avail himself of this opportunity to spend a profitable hour Sunday afternoon.

ARTILLERY MOVING—There is just a chance of getting 300 United States cavalry and artillery men to pass through Janesville on their return to Chicago from Camp Douglas. They have fought Indians and put down mobs. They wear white helmets, their horses are superb and they march twenty miles a day.

You see an account every few days of an advance in the price of leather. Now this must, of course, raise the price of shoes. Our stock was all purchased before the rise, and we will let it go at the old figures, 50 cents on the dollar. Don't wait to deliberate, now is the time to act. Becker & Woodruff.

CLAM BAKE—Invitations have been issued for the second annual clam bake to be given up the river on August 22. The Imperial Band will furnish the music gratis and a male quartette will sing. The boat will leave at 7:30 sharp and the executive committee are making great preparations.

MISS O'NEIL HOME—Miss Josie O'Neil came home from Muskegon, Mich. last evening. "She went to Muskegon from Chicago, said Mrs. O'Neil today, and wrote me at the time. I was in poor health and telegraphed to Muskegon to learn her address so I could send her a ticket to come home at once."

DID you ever wonder why so many people bought their shoes of Brown Bros. & Lincoln. If you would go with them and see the goods and prices you would not wonder any more. Brown Bros. & Lincoln.

F. J. BAILEY, of Bort. Bailey & Co., started this morning for the east. He will visit the New York, Boston and Philadelphia markets, in search of the good things in the dry goods line for the Rock county people. He will be gone about three weeks.

THE Evansville Hussar Band will give a grand concert at Crystal Springs park, Sunday, Aug. 18th. Steamer Columbia will leave for the park at 10 a. m. and at 1, 2, 3, and 4 o'clock p. m. promptly. Round trip, 15 cents.

ALTHOUGH we have been unable to wait on all this forenoon, we will try and have more help this evening to accommodate all. Such bargains were never before known. Lloyd & Son.

Don't forget that our cost sale on summer clothing continues all of next week. The past week's sales have been good and the continuance will prove a winner on our summer stock. Frank H. Back.

WRITE your friends or else go get them. Hurry your caravan in. Those shoes we are selling at half price are golden opportunities—50 cents on the dollar takes any in the house. Becker & Woodruff.

INMAN & Ballard, the planing mill men, have a new advertisement on the second page today. They make a specialty of fine interior finishing as well as scroll work of all kinds.

MANY CAMPERS—Baggage men say that about as many camping outfits as trunks are being checked these days.

Just received forty patterns of beautiful silk and wool and all wool colored novelty dress goods. We have some of the choicest things we have

ever shown. We have only one pattern of a kind, and when that is sold that ends it. Bort Bailey & Co.

CLOSING STORES—"I should be pleased to see the stores close every night except Wednesday and Saturday, the year around," said a merchant today. Janesville is no longer a little country town with where the stores furnish a loafing place for the populace after supper."

STRONG & Co., of 159 West Milwaukee street, whose advertisement appears tonight on the 5th page, are prepared to furnish the famous S brand butter, fresh eggs and cheese on short notice to families daily. Order by wagon, or telephone No. 210.

NEW JEWELER—The Third ward home of Mr. and Mrs. W. P. Sayles was made glad last night by the safe arrival of a son and heir who will soon be able to engrave silverware and fix watches in the most improved style of the art.

Who would buy poor goods if they could get good at the same price. That's just what you can do if you buy your cut glass of A. F. Hall & Co., "the reliable jeweler." Have you noticed their Milwaukee street show window?

SURPRISE—A surprise party was given at the Franklin Hotel last evening, in honor of Miss Price. Thirty guests were present, refreshments were served, and Huyke's orchestra furnished the music.

PARTY—A delightful social event in honor of Rev. and Mrs. T. P. Sawin, was given by Mrs. Eliza Burpee at her home 101 Pleasant street last evening and was much enjoyed by all who attended.

BRIDGES—Bridge Carpenter Adams of the St. Paul road and crew were in the city this morning on a hand car, after a careful inspection of the bridges between Beloit and this city.

The funeral of Miss Anna Tall will be held from the home at 2 o'clock tomorrow afternoon, and all who desire to see the remains can do so between 10 and 12 o'clock in the morning.

We place before you today the most complete line of high class black dress goods ever shown in this city at such low prices that you will be surprised. Bort. Bailey & Co.

CHRISTIAN SCIENCE—Services are held in room five Bennett block at 10:30 a. m. Sunday and at 7:30 p. m. Friday. All are cordially invited.

MANY ROSES—The street cars were well patronized yesterday, the number of paid fares during the day being 2500, the best of the year.

PROFESSOR HUNT, of Denver, a skillful violinist, is to play at Masonic hall, Footville, August 20, in the evening, with other entertainment.

KILLED AN EEL—Arthur Metzinger killed a large eel this morning with a club, while the wiggler was chasing minnows.

EXTRA CARS—A number of extra coaches were received in this city this morning, returning from New Glarus, to Milwaukee.

CROSSWALKS—The stone crosswalk at the corner of Jackson and Wall streets was replaced with cedar blocks.

FOR best values in hose call at the Fair. Ladies' fast black five cents a pair. Six pairs of men's socks for 25 cents.

RESTING—Mrs. McCormick was taken to the county house this morning by Officer Cochran for six months' rest.

POPULAR prices is the one touch of nature that make all classes kin. Ferris Comedians ten cents next week.

LA PRAIRIE DANCE—Huyke's orchestra will play for a dance at the La Prairie grange hall this evening.

ROLLER IS USELESS ON DIRT STREETS

MUST HAVE PROPER MATERIAL TO DO GOOD WORK.

It Cannot Make a Boulevard of a Country Road Nor Pack Common Earth Harder Than Nature Did—With Proper Materials, Such as Broken Stone, Results Will Follow.

Janesville's new steam roller is a good thing in its place, but its sphere is not the rolling of dirt streets. Unless the proper material is used, the machine might as well be housed. It will undoubtedly pack the earth solidly as it can be packed, but it cannot make anything of a dirt road but a dirt road. The new machine is evidently all that is claimed for it, and if it is properly used, will do all that the manufacturers said it would. However, they never represented it as a wonder worker, and do not now claim it is. It cannot make stone of muck, and it cannot make muck as solid as stone. The new machine was at work on South Jackson street this morning. This street, it was thought, would be a good one to work, as it had been graveled. A top dressing of clay and gravel was put on, and the machine was set in motion. It flattened the mass out in good shape and made a smooth job of it, but it couldn't make the material any more dense than it naturally was and the result was simply a smooth street of material that would cut up as readily as ever.

"If they could roll down hard material as smooth as that" said one man who watched the machine, "it would make a fine street, but it seems to me that it is a waste of the ward funds to experiment any more. It is admitted that the machine will do good work if it has a chance, so my idea would be to fill in one street or a part of a street, with broken stone and use the roller as it was intended to be used. It will make a suret like Michigan avenue in Chicago, if they will use the proper material, but you can't make a boulevard of a country road, not with all the rollers in America."

The city officials coincide with this idea and this afternoon decided to plow up a portion of the street between Marion and Pleasant streets, fill it with stone and then use the roller, which will probably result in a better job.

SHOT AT AN EFFIGY OF GEN. KING

Camp Douglas Jubilee Ends in a Demonstration Against the Commander.

Camp Douglas, Aug. 17.—Company A will arrive in Janesville at about 6 o'clock Saturday evening, and most of the boys will be glad to get home.

All the regulars seemed unusually happy last night, and their jubilation was shown in a measure by numerous bonfires all over the grounds, and by an abundance of liquid refreshments which were served continually to the excited soldiers. Pistol reports rang out every now and then but so far no accident has occurred. They also had an effigy of a man tied to a stake which they fired at and finally ignited. The image was made to represent no definite person but the militia lovingly called it General King. General King has been very rigid in the enforcement of the army regulations and the boys, who don't realize the true merit of the general's action took this means of expressing their feeling.

IN RESPONSE TO THE FINAL CALL.

Edwin Beyer.

Death entered the home of Mr. and Mrs. Theodore W. Beyer, at the corner of East street and Prospect avenue at 7:30 o'clock last evening, and claimed their four months' old son, Edwin, cholera infantum being the cause of his demise. The affliction is indeed a sore one, and Mr. and Mrs. Beyer have the sympathy of their many friends.

STILL FIND PEARLS IN RIVER CLAMS

WESTLEY ALLEN DISCOVERS TWO VERY NICE ONES.

Both Were Reposing in the Shell of the Same Moss Backed Bivalve but None of the Old Timers Relatives Could be Found—Many Hunters Poking About.

A small army of men and boys are poking about the river in the rear of Thoroughgoods & Company's box factory looking for pearls and they are meeting with pretty fair success. Westley Allen has been the most successful as he has found five gems all of which appear to be valuable. Two in particular are especially few. One is about the diameter of a lead pencil and slightly longer than it is wide. It seems to be nearly perfect in color and texture but it is not perfectly round. The other is shaped a good deal the same as a 22 caliber rifle bullet but is not quite so large. It is pointed at one end and square at the other but the color is even and the surface smooth. Mr. Allen found both pearls in the same clam shell. The shell was an old one and covered with moss, and Mr. Allen was unable to find any more like it. His other pearls were "slugs," or pieces of irregular shape and are therefore less valuable.

"I have not seen any pearls from Rock river as nice as these" said Mr. Allen this morning. "I have not yet taken them to a jeweler, and do not know what they are worth, but I guess I can get something for them."

The low stage of the river makes pearl hunting easy at that point and many small boys are at work. No pearls of material value have been found, however, except those picked up by Mr. Allen.

QUEEN VIC IS MAD.

Her Majesty Resents the Publication of Her Wealth.

Queen Victoria is reported to be in a state of mind quite the reverse of serene. In fact, the irreverent assert that her majesty is "hopping mad." The alleged cause of her alleged anger is not political. The royal mind contemplates the exit of Rosebery and the liberals and the coming of Salisbury and the conservatives with no painful emotions. The sympathy of royalty with conservatism is as natural as the inclination of water to flow down hill. Therefore the political change in the government is a source of joy to her majesty. It appears that a person who was formerly employed as accountant of the royal family took advantage of that position—it may have been a mean advantage—to find out many things, including the amount of the queen's private fortune and divers interesting details pertaining thereto. It further appears he took notes and made memoranda, and that he has, like other great discoverers, taken the world into his confidence. In short he states that her majesty is worth \$175,000,000. And that is what provokes her. The world has long suspected that the good queen was accumulating a vast fortune. It was known that her expenditures were small as compared with her receipts. In this she has set a good example. "Little by little we get to be rich by saving of candle ends and such" is a wise maxim for persons of high or low estate, and though that maxim did not commend itself in the sad story of Phoenix McBride it has had a superb vindication in Queen Victoria's career. At various times there has been robust kicking in the House of Commons when that body has been asked to make provision for sundry scions of royalty. Doubtless the kickers knew that royalty was abundantly able to care for all its branches and twigs, but it is improbable that many persons placed Victoria's wealth at \$175,000,000. With this she is easily the richest woman in the world. That sum would buy 175,000 good farms in many parts of the country. It would buy 131,250,000 acres of public lands at the regular price. A few years ago it would have equalled the value of all the real estate, public and private, in the District of Columbia. If a man could live and work and save \$500 every year, he could save \$175,000,000 in 350,000 years. Great Britain has the richest sovereign in the world, and, in spite of its increasing tendency to democracy, it really seems to delight in lavishing money on those whose only title thereto is hereditary.

MONEY MARKS.

The World Has a Way of Doing Things Backward.

Did it ever strike you as being at all peculiar that we should use the dollar mark (\$) before instead of after the figures in expressing the sum of 5, 10, 20 or any other number of dollars? We may say "twenty-five dollars" plain enough for anyone to understand, but as soon as we put the expression into figures and characters it is "dollars twenty-five" (\$25) instead of 25\$, as it should be. Nor is this all that is peculiar in this connection. In every country which has a written language and a system of coinage the abbreviation for the unit of value precedes the figures. In England the pound mark (£) is used in the same manner that the dollar mark is used in this country, while the same peculiarity is noticeable in Germany, where the abbreviation m. (for mark) appears preceding the number, just as the French abbreviation fr. (for franc) is used in France. If abbreviations are not used the legend is more apt to be correct. We find that in Mexico they have a "2½ pesos" instead of "p 2½," as one might expect, and in Newfoundland they have a plain two-dollar piece. So, too, in France, where the abbreviation is not used we find such pieces as "10 francs," "20 francs" and "40 francs." In Germany they have a piece marked "X thaler," which is all very plain, but the moment a clerk, bookkeeper or other person makes an entry or jots down a memorandum he tells you that it is a "th. X."

The English pound sign, which is believed to be the oldest monetary abbreviation now in use, is the old initial letter by which the Romans expressed "pounds," just as we use the "lbs." It has been suggested that we use our money abbreviation backward because the Romans in expressing "pounds" always said "libra decem" instead of "decem libra," the first being "pounds ten" and the latter "ten pounds."

When their initial letter or character was used it always preceded the figures thus: "£10" instead of the reverse. Thus the whole world has got in the habit of doing these things backward.

An Odd Custom.

The oldest temperance society in the world is the abstaining commune in Achylka, in Siberia, all of whose members are strict teetotallers every day in the year except one. Regularly on the first day of September, year after year, all the adult members of the commune assemble in the parish church, and everyone takes a solemn vow before the altar to drink no wine, beer, or spirits "from the morrow" of the following day for the whole year. The clause "for the morrow" is introduced in order to give them a reward for their virtues in the shape of a whole day of drunken carnival. As soon as they leave the church they begin to indulge in a horrible Bacchanalian drinking, which continues throughout the day, until neither man nor woman in the village is sober. This is naturally followed by considerable physical suffering, and then by mental remorse, whereupon the penitent parish enters upon its twelvemonth of model sobriety, and all live like the Rechabites. Some students imagine that this queer proceeding may be a prehistoric tribal custom.

The Burgomaster's Ready Wit.

The London Standard special correspondent gave a description of a picturesque incident of the Hamburg fete. When the emperor, after the banquet in the town hall and in response to the acclamation of the crowds outside, stepped on to the balcony to show himself to the people, there came a terrific clap of thunder. The first burgomaster, with the quickness of a true courtier, at once remarked to his majesty, "Sire, le ciel vous salue!" (Sir, heaven salutes you.) The emperor's reply is not recorded.

Exiled Poet, Exiled Fountain.

Heinrich Heine is without doubt the great popular poet of the German people, but the authorities of Dusseldorf, his birthplace, and of Mayence as well, have refused to allow the erection of a memorial fountain in his honor, and it is now proposed to erect the fountain in New York. Heine was born in Dusseldorf in 1800 and was of Jewish extraction. He became an infidel and lampooned the official classes so severely that he was compelled to remove to France, where he lived until his death in 1856. His satire was so cutting that the German aristocracy and the parvenu rich have never forgiven him.

WHAT DO THEY DO WITH IT?

The Mystery of the Constant Chinese Demand for Ginseng.

Passing through the wholesale district the other day a Nashville American reporter stopped in at one of the large houses to ask about prices. When ginseng was reached in the list the dealer said:

"What the Chinese use ginseng for is to the masses one of the mysteries of the age, but that they gobble up every ounce of the herb that the known world supplies is nevertheless a fact. Because the most thorough inquiry has failed to bring about a complete unfolding of the secret is not regarded by the average American as sufficient reason for refusing from \$3 to \$5 per pound, on the average, which the Celestial offers for the root. Some of the largest firms in China make a specialty of handling the American export of ginseng and coin money at it. Some of our shrewdest traders have coaxed for the secret, and have offered money for it, but the gray matter at the other end of the Chinaman's queue doesn't seem to see it that way.

"The American ginseng is growing scarcer yearly. The cultivated root has not the wonderful power which fixes the value of the wild article; at least it does not manifest itself to the same degree. This fact renders the cultivation of ginseng rather unprofitable. It might be planted and allowed to grow well for years and years and then be salable at good figures, but not otherwise. The older the plant the more pronounced the wonderful properties of the root. In view of the fact that it is growing scarcer, unless the demand diminishes, the price of ginseng must go materially higher within the next few years.

"The market here is largely speculative. The Chinese ginseng houses each year send their buyers from California to the East to buy up the receipts of ginseng. These buyers have not yet put in an appearance on the Eastern market, and consequently this year's price has not been fixed. Dealers are paying \$2.50 in Nashville for the reason that they believe they can secure the usual prices for all they take in. Some advices, however, are to the effect that the price will be 20 or 30 cents lower, owing to the fact that the demand has been cut off somewhat by the war."

WAR OF ROSES.

The Perfume Drove the Pastor from the Pulpit.

A young clergyman from Boston preached in a little Jersey town on last Sunday. Everything was made as festive as possible for the visitor. The members of the congregation turned out in their best clothes, and the church was elaborately decorated with flowers, the pulpit being a mass of June roses.

But in spite of all these efforts, when the visiting clergyman entered the pulpit he looked about him with dismay. Almost instantaneously he gave vent to a series of emphatic sneezes. Then stepped down from the pulpit and, beckoning to a neighboring elder, whisperingly confessed that he could not proceed with the services unless the roses were removed. "I have rose cold," he added, by way of explanation. There was nothing for it but to divest the church of all its floral trimmings, after which the minister re-entered the pulpit and the services proceeded.—Ex.
